KURE & SEAL 1315

Product Information Statement for LEED® New Construction (NC) Version 2.2 Credit Documentation

KURE & SEAL 1315 is a clear, curing and sealing compound designed to cure fresh concrete and to seal existing concrete and other cementitious materials. KURE & SEAL 1315 conforms to or exceeds the following standards: ASTM C-1315, Type I, Class B, & C; ASTM C-309, Type I, Class A, B, and Type D with red dye added; TT-C-0800A, Type I, Class I; AASHTO M-148, Type I, Clear, USDA, and the Resilient Tile Institute.

TK Products certifies the following information for KURE & SEAL 1315:

Manufacturing Location

KURE & SEAL 1315 is manufactured in Minnetonka, MN.

Recycled Content

TK Products certifies that KURE & SEAL is manufactured with less than 5% of post-consumer material recycled content from the normal recovery of raw material in the manufacturing process.

VOC Content

TK Products certifies that the VOC (volatile organic content) of KURE & SEAL 1315 is 632g/l.

Based upon the above information, TK Products certifies that KURE & SEAL 1315 may contribute to the following LEED NC v2.2 Credits:

- MR Credits 1.1 & 1.2: Building Reuse: Maintain 75% & 95% of Existing Walls, Floors, & Roof
- MR Credits 4.1 & 4.2: Recycled Content: 10% & 20% (post-consumer + ½ pre-consumer)
- MR Credits 5.1 & 5.2: Regional Materials: 10% & 20% Extracted, Processed, & Manufactured

Respectfully,

LEED Administrator
